

Overview of the Clermont-Fd site

Biopôle Clermont-Limagne has 3 locations ready to welcome businesses: Riom, Saint-Beauzire and Clermont-Ferrand. Right by the A71 motorway towards Paris, all three locations are only minutes apart and they are also close to the international airport and the main centres of research in the Clermont area.

The Clermont-Ferrand site has a 2,800 m² building on offer. Previously used for plant biotechnology research, it has dedicated equipment for culturing etc.
